

American Society of Neuroimaging 2023 Annual Meeting Program at a Glance

Preliminary schedule. Subject to change.

Ultrasound Credit Saturday, August 12, 2023

7:45 AM	Introductions and Welcome	
8:00 AM	Ultrasound Physics: Overview of What you Really Need to Know	Teach me how to Read the Extracranial Structures on Head CT and MRI; Peter Kalina, MD, MBA- <i>Mayo Clinic</i>
8:30 AM	High Yield Test Items: Resolution Types and Artifacts	Using Neuroimaging to Guide Brain Tumor Management
9:00 AM	Carotid Duplex Primer and Technical Considerations	Neuroimaging of Cancer-Related Treatment Associated Neurotoxicity
9:30 AM	Teach me how to Interpret a Carotid Duplex	CNS Vasculitides: a Neuroimaging Review
10:00 AM	Coffee Break with Exhibitors	
10:30 AM	Carotid Duplex Artifacts	Neuroimaging of Systemic Diseases; Shivani Ghoshal, MD - <i>Columbia University Vagelos College of Physicians and Surgeons</i>
11:00 AM	Carotid Duplex Tips and Tricks From the Expert; Jesse Weinberger, MD - Icahn School of Medicine at Mount Sinai; Mount Sinai Medical Center	Tele-Neurosciences Care Delivery Models During Times of Physician Shortage and the Importance of Being to Read Your Own Imaging Studies
11:30 AM	What Constitutes a TCD Complete Study?	High Yield Imaging Review of Headache Patients
12:00 PM	Industry Sponsored Lunch Symposium	
1:00 PM	Billing for Neuroimaging as a Clinician	
1:30 PM	Transcranial Doppler: Interpretation Skills- Team of Expert Physicians and Sonographers	Streamlining outpatient and inpatient documentation of neurology encounters
2:00 PM	Coffee Break with Exhibitors	
3:00 PM	TCD Waveform Morphology: what does the waveform tell you that is beyond the numbers?	The business of Thrombectomy: Understanding how Conversion of Medical DRG to a Surgical DRG Changes your Program's Profit Margin

4:00 PM	NVS, RPNI, RVT: Alphabet soup of TCD Credentials and why it Matters Marge Hutchisson - <i>Intersocietal Accreditation Commission</i>
4:30 PM	TCD Lab Accreditation: It's About Patient Care
5:00 PM	Welcome Reception with Exhibitors and Poster Session
6:00 - 8:00 PM	TCD Hands-on Basic Workshop - Knobology and Seeing Each Manufacturers Bells and Whistles; Methil Pradeep, MD, FRCP, FASN

Sunday, August 13, 2023

7:45 AM	Introductions and Welcome	
8:00 AM	TCD Artifacts	Wake up Strokes: How to Organize Neuroimaging Services in the ED to Obtain Timely MRIs
8:30 AM	Sonographer Staffing for your Vascular Lab	
9:00 AM	Finding a Physician Champion as a Sonographer	Cryptogenic stroke: What Imaging is Needed?
9:30 AM	Clinical Applications of Volumetric MRI	
10:00 AM	Coffee Break with Exhibitors	
10:30 AM	Industry Sponsored Symposium	
11:30 AM	Introduction to Peripheral Nerve Ultrasound	Acute Demyelinating Disorders in Adults: A Neuroimaging Review Rob Bakshi, MD - <i>Harvard Medical School</i>
12:00 PM	Industry Sponsored Lunch Symposium	
1:00 PM	Time with Exhibitors	
1:30 PM	Introduction to Peripheral Nerve Ultrasound	Transcranial Doppler: Interpretation Skills- Team of Expert Physicians and Sonographers
2:30 PM	Peripheral Nerve Ultrasound: Cases and Considerations	
3:30 PM	Reception with Exhibitors	
4:30 - 6:30 PM	TCD Hands-on Advanced Workshop - Cool Tips and Tricks; Methil Pradeep, MD, FRCP, FASN	

Monday, August 14, 2023

7:45 AM	Introductions and Welcome	
8:00 AM	Pediatric Acute Stroke	TCD as a Multi-Modality Tool in Critically-ill brain-injured patients; Shraddah Mainali, MD - Virginia Commonwealth University
8:30 AM	Pediatric TBI monitoring through serial neuroimaging	How to use TCD in the care of sub-occlusive large vessel thrombosis

9:00 AM	Transcranial Doppler: Interpretation Skills- Team of Expert Physicians and Sonographers	Multi-Modal Imaging of Acute Ischemic Stroke
9:30 AM		Neuroimaging and Mobile Stroke Units
10:00 AM	Coffee Break with Exhibitors	
11:00 AM	Post-thrombectomy Care of the Pediatric Patient: What Adult Neurologists Need to Know	TCD Emboli Detection: Monitoring of the Anterior AND Posterior Circulation
11:30 AM	Clinical Applications of Optic Nerve Sheath Measurement	Vasospasm in Kids: you Can't use the Same Criteria as Adults
12:00 PM	Industry Sponsored Lunch Symposium	
1:00 PM	Acute Demyelinating Disorders in Kids: A Neuroimaging Review	Vasospasm Diagnosis and Management Symposium
1:30 PM	Neuroimaging Review of the ICH Patient: Updates from the 2022 Guidelines Marc Babi, MD - <i>Cleveland Clinic</i>	
2:00 PM	Using Neuroimaging to Guide the Treatment of Patients with Cerebral Amyloid Angiopathy	
2:30 PM	Incorporating Ultrasound Training into Medical Education: from Students to Fellows	Neuroimaging Review of Anoxic Brain Injury - Julia Marion Carlson, MD - <i>University of North Carolina School of Medicine</i>
3:00 PM	Cerebral Venous Sinus Thrombosis: when is Thrombectomy Indicated	Cerebral Circulatory Arrest Symposium
3:30 PM	Extracranial Internal Carotid Artery Stenting: Appropriate care for the Patient with Bilateral Stenosis	
4:00 PM	MRI Findings in Patients Following Status Epilepticus: When to be Concerned	
4:30 PM		
5:00 PM	Closing Reception and Preview of Inaugural NCS-ASN Collaboration Day
