<u>POSTER #</u>	<u>Abstract Title</u>	<u>Presenter</u>
Poster 01	Brain abscess appearing twenty years post craniotomy	Vijay George Palakuzhy
Poster 03	Postoperative Diffusion Restriction in the Proximal Optic Nerve: Optic Neuropathy or Central Retinal Artery Occlusion?	Parth Parikh
Poster 04	Magnetic resonance imaging as a prognostic disability marker in clinically isolated syndrome: A systematic review	Amjad Altokhis
Poster 05	Neuroaspergillosis in a patient with chronic lymphocytic leukemia as progressively worsening ischemic infarct	Gull Zareen Sial
Poster 06	Bilateral Internuclear Ophthalmoplegia Caused by Unilateral Infarction	Srimadhav Nallani Chakravartula
Poster 08	Neuroimaging in Mitochondrial Short-Chain Enoyl-coa Hydratase 1 Deficiency: A Progressive Encephalomyelopathy Starting in Utero	Paul Maertens
Poster 09	Childhood-Onset Neurodegeneration with Brain Atrophy (CONDBA): Imaging Findings of a Rare Diagnosis	Osman Corbali
Poster 10	Multiple Sclerosis Associated with Balo-like Lesions Post-COVID-19	Rana Zabad
Poster 11	Within-subject reproducibility of quantitative proton density mapping	Virendra Mishra
Poster 13	Disseminated Invasive Aspergillosis in a Patient with Neurosarcoidosis: Persistent Contrast Enhancement Despite Prolonged Antifungal Treatment	Rana Zabad

<u>POSTER #</u>	<u>Abstract Title</u>	<u>Presenter</u>
Poster 14	Hemicraniectomy Resulting in Intracranial Double-Pulse Phenomenon as Captured on TCD	Olivia Mattner
Poster 15	Positional headache and spinal cord compression in Klippel-Feil Syndrome	Sehar Babar
Poster 16	A Mysterious Case of Cavernous Malformation Requiring Exploratory Surgical Intervention: A Case Report	Khadija Awais
Poster 17	Cavernous Malformations: A Mini-CaseSeries on Diagnosis and Management	Khadija Awais
Poster 18	Prevalence of asymptomatic internal jugular venous stenosis/occlusion in the analysis of 165 cerebral angiograms **Qureshi Award Winner	Sehar Babar
Poster 19	Stenosis of Azygos ACA Results in Bilateral ACA Infarcts	Diana Yang
Poster 22	Coronavirus Vaccine and Cerebral Vasculitis: Case & Imaging Review with Discussion of Potential Pathophysiology	Sunil Mutgi
Poster 23	Cerebral Venous Sinus thrombosis masquerading as Acute Arterial Ischemic Stroke	Muhammad Ubaid
Poster 25	Repetitive Head Impact (RHI) Induced Topological Reorganization of Diffusion MRI Derived Structural Connectome	Virendra Mishra
Poster 26	Effect of Somatosensory and Active Motor Stimulation on Cerebral Blood Flow Response	Greg Bashford
Poster 27	The Prevalence of Right-to-Left Cardiac Shunt in Mechanical Embolectomy Cases	Amanda Holcomb
Poster 28	A Deep Learning Model for Grading Right-To-Left Shunts Developed with Synthetic Data	Corey Thibeault
Poster 29	Choroid Plexus Papilloma in an Adult Female	Laszlo Mechtler

<u>POSTER #</u>	<u>Abstract Title</u>	<u>Presenter</u>
Poster 30	Sex, resting state functional connectivity fMRI and cognition in late middle age **Oldendorf Award Winner	Mouna Tahmi
Poster 31	Rimegepant Preference and Improved Clinical Global Impression of Change Among Adults With Triptan Treatment Failure	William Seidel
Poster 32	Long-term Rimegepant for the Acute Treatment of Migraine Reduces Use of Analgesics and Antiemetics	William Seidel
Poster 33	Rimegepant for the Acute Treatment of Migraine With and Without a History of Triptan Failure	William Seidel
Poster 34	Phase 2/3, Randomized, Double-blind, Placebo-controlled Study Evaluating Rimegepant for the Preventive Treatment of Migraine	William Seidel
Poster 35	Iron Rims as an Imaging Biomarker in MS: A Systematic Mapping Review	Amjad Altokhis
Poster 36	Susceptibility Weighted Imaging is Useful in Improving the Accuracy of DSC-MRI Parameters in Low-Grade Glioma	Amjad Altokhis
Poster 37	Transcranial Doppler Ultrasound Significantly Improves Identification of Acute Phase Large Vessel Occlusions **McKinney Award Winner	Corey Thibeault
Poster 38	Lhermitte Duclos Disease Diagnosed with Multi-Modal MRI techniques in a patient with complex symptomatology **2022 Resident Travel Award Winner	Shahhan Spall
Poster 39	If There is Air in the Thecal Sac, Think GI Tract	Brittany Kasturiarachi
